Dear Friend,

If you remember, The Zoe Lee Foundation was able to reunite a young girl, Kholeka, suffering with leukaemia with her mother whom she had not seen for two years, funded through the sale of Grampian Fire Brigade T-shirts.

At the time of the reunion Kholeka was in remission, however, not long afterwards, the leukaemia came back.

It is now with a sad heart that I write to tell you that Kholeka finally lost her fight recently.

Just hours before this news reached me someone said to me 'if you manage nothing else other than reuniting this family then what a wonderful achievement is'.

So I wanted to reiterate my heartfelt thanks for providing the means by which it was possible for two people to spend precious time together creating special memories.

There is so much more to do but there is comfort in knowing that a gesture such as this can have a huge impact on those that need it.

Kind thoughts and warmest wishes,

The Zoe Lee Foundation
